

MATER DOLOROSA SCHOOL
TECHNOLOGY AND INTERNET ACCEPTABLE USE AGREEMENT

Mater Dolorosa School provides technology and internet access to all students. The overall purpose and objective of the technology program is to provide all students with practical use of technology and leading software programs enabling them to become independent and confident users of technology. Our technology program reflects the mission of Mater Dolorosa School in that we teach our students a respect for the equipment and we emphasize the development of ethical standards when working and communicating through technology.

As part of our technology program, our school provides internet access in order to educate students in cutting edge technology, internet research, and to gain knowledge of others uses of the internet. The school uses protection measure blocking and filtering software to prevent access to and from inappropriate internet sites.

Access to technology and the internet is provided with the understanding that the student agrees to the conditions of our Computer and Internet Use Agreement as follows:

- Students shall only use the provided technology and internet as instructed by the computer teacher and classroom teachers and shall not make any changes to the computer systems, interactive whiteboards or iPads that may harm the integrity of the equipment and computer network. Students shall not install any programs or download material without prior consent from the computer teacher.
- Students shall only go to those web sites approved by the teacher and not use the internet for access to personal communication. Students agree never to e-mail pictures or personal information (name, home address and phone number, or the name and location of the school).

Students shall only be allowed technology and internet access with the acceptance of this agreement. If at any time, a student violates this agreement, appropriate disciplinary action, in accordance with the offense and determined by the computer teacher and Principal, will be taken.

It is recommended that parents discuss the importance of safety on the internet at home with their children. Children should never give out personal information such as their name, home address, telephone number or their picture without your prior consent. Be aware of your children's activities on-line.

Student Name: _____
(Please Print)

Grade: _____

I have read and discussed the importance of the above agreement with my child and he/she agrees to follow the Technology and Internet Usage Agreement of Mater Dolorosa School.
